3.3.2	Multiple pages set to Book fold	2	
3.4	All text set to justified	1	
3.5.1	Image Cropped Only man in the middle displayed	2	
3.5.2	Image height enlarged Exactly to 7 cm	2	
3.6	Table of contents added Is a automatically generated table of contents An example of table of contents given below: <div style="border: 1px solid black; padding: 5px; width: fit-content;"> <p style="text-align: center; color: red; margin: 0;">Contents</p> <p>Respect..... 2</p> <p>Honourable..... 3</p> <p>Be Happy..... 3</p> </div>	2	
QUESTION 4		11	0
Stickers.docx			
4.1	Document has been linked to a file To correct file Merge When opening the file, it should come up with a message reading "Opening this document will run the following SQL command:" This indicates that it has been linked to a file for the first mark, this will be followed by a SQL statement reading SELECT * FROM 'Members' this indicates that correct file has been chosen.	2	
4.2	Ascending by Area Then ascending by Full_Name Done in data source not in table Note: Check SQL statement: SQL should read 'SELECT * FROM 'Members' ORDER BY 'Area' ASC, 'Full Name' ASC'. If ORDER BY not present then check database to see if sort was applied to the table. If applied in the database they lose the 3rd mark. If done correctly the document will display the following when you open the file: <div style="border: 1px solid gray; padding: 10px; width: fit-content;"> <p style="text-align: center; margin: 0;">Microsoft Word</p> <p style="margin: 5px 0;">Opening this document will run the following SQL command:</p> <p style="margin: 5px 0;"> SELECT * FROM 'Members' ORDER BY 'Area' ASC, 'Full Name' ASC</p> <p style="margin: 5px 0;">Data from your database will be placed in the document. Do you want to continue?</p> <p style="margin: 5px 0;"><input type="button" value="Show Help >>"/></p> <p style="margin: 5px 0; text-align: center;"><input type="button" value="Yes"/> <input type="button" value="No"/></p> <p style="margin: 5px 0; color: blue; text-align: center;">Was this information helpful?</p> </div>	3	
4.3	Field Code inserted Both Name and Place replaced by field coded <<Full_Name>> and <<Area>> respectively	2	
4.4	Next replaced with rule field to move to next record	2	
4.5	Contents copied to another cell Has been copied to all other cells	2	

Excel		48	0
QUESTION 5		48	0
Finances.xlsx			
Sheet 1 / Expenses			
5.1	Sheet1 renamed to Expenses	1	
5.2	Column C formatting changed to Currency Set to 0 decimal places	2	
5.3	Conditional formatting applied to column C Colour Scale applied, Red for large, Green for small Note: Check rule not colour	2	
5.4.1	Row inserted Above the first row	2	
5.4.2	Merged & Centred A1:E1	1	
5.4.3	Text added Expenses Bold applied to whole text	2	
5.5.1	Single border around outside of table	1	
5.5.2	A dashed border added Inside of the table	2	
5.6	Hyperlink added to text Member Points to sheet Members	2	
Income			
5.7	A1:D1 formatted to have a yellow background	1	
5.8	Sorted by Type ascending Additional sort field added Sorted by Amount descending	3	
5.9	Filter added to table Set to only display where Received = Yes	2	
Members			
5.10.1	Orientation of text in the first row set to 90 Degrees (Text up)	1	
5.10.2	Page layout set to print gridlines	1	
5.11	Custom format applied Custom format set to 0' P3ps' or 0" P3ps" Note: Hashtag works and acceptable, also one or 3 number holders is fine i.e. ###' P3ps' is acceptable. Deduct one mark if custom format does not contain a space	3	
5.12	Cell: F2 Solution: =HLOOKUP(E2:\$J\$1:\$L\$2;2;FALSE) Function: Hlookup Lookup Value and Table array: e2 and J1:L2 Column and Range Lookup: 2 and FALSE Expanded To: F161 Expanded and calculation remains correct First 3 Answers: 200, 200, 400, ... (Please note, calculation must be marked not answers) Note: do not deduct a mark if absolute cell reference was not used, only if calculation wrong when expanded. If they updated the calculation manually then they would have been penalised with time, so do not feel they need to lose the mark too. Note: If pupil edits lookup table to be verticle and uses a vlookup you can award the marks. Ensure lookup table has been transposed before awarding. Alternative Answer: =IF(E2=\$J\$1;\$J\$2;IF(E2=\$K\$1;\$K\$2;\$L\$2))	4	
5.13.1	Cell: H2 Solution: =ROUNDDOWN((NOW()-G2)/365.25;0) Todays date This must be automatically updating, but by any method which will return todays date. Subtract the date of birth G2 /365.25 Rounded down First 3 Answers: 21, 31, 25, ... (Please note, calculation must be marked not answers)	4	
5.13.2	Calculation expanded to apply to all members	1	
Summary			
5.14	Cell: B1 Solution: =COUNT(Members!H:H) Function: Count or CountA or Rows Range: All records in column D, F, G or H if Count and Columns A, B, C or E if CountA used Answer: 160 (Please note, calculation must be marked not answer)	2	
5.15	Cell: B2 Solution: =SUM(Members!D:D) Function: SUM Range: All records in column D Answer: 23540	2	
5.16	Cell: B3 Solution: =MAX(Members!D:D) Function: Max or Large (If Large second parameter must be 1) Range: Members!D:D or Members!D2:D161 Alternatively name the range and refer to the name. Answer: 310 (Please note, calculation must be marked not answer)	2	
5.17	Cell: B4 Solution: =LARGE(Members!D:D;2) Function: Large function used Range and Kth number: Correct cell range and 2 Members!D:D or Members!D2:D161 or if they named the range. Answer: 295 (Please note, calculation must be marked not answer)	2	
5.18	Correct data selected for chart A7:B10 Pie chart created Largest Contributor highlighted Note: Significantly stands out Percentage contribution displayed as label Appropriate title given	5

QUESTION 6		43	0
P33ps-Question6.mdb			
Venues			
6.1	All fields (3) All records (15) Imported successfully To the existing table Venues Note that the delimiter # had to be used in import.	3	
Contacts			
6.2.1	ContactID field set as the primary key field	1	
6.2.2	Field created called Full Name Is set as a required field	2	
6.2.3	Input mask added 0 wild card added Do not accept 9 10 placeholders 0000000000 Formatting does not matter, as long as there are 10 place holders of 0	3	
6.2.4	Field Venue FK created Looks up from table Venues Field Venue Name Ensure in design view check lookup properties. 6.1 does not effect this question.	3	
Organisers			
6.3.1	A value list Either a combo box or list box Row Source PR;PA;HR	3	
6.3.2	Between or >= AND <= used -2009 Year(Date()) Appropriate validation text Between 0 And Year(Date())-2009	4	
frmEvents			
6.4.1	Event Name, Date of Event and Organiser FK fields from the Events table added All fields from the Venues table added Form is grouped by the Venues table Form named frmEvents	4	
6.4.2	Examination number in form header	1	
6.4.3	Button added to form Button takes you to next record	3	
qryPriceRange			
6.5.1	ONLY Venue FK field displayed Criteria placed on Amount field of >=200 and <=800 Alternative solutions: Between 200 and 800 Field Amount placed on two colums and criteris of >=200 applied to the one and <=800 applied to the other, the criteria on the same row. Criteria of 'per day' applied to Amount Type field	4	
qryOrganisers			
6.5.2	Count grouping applied to primary key field (OrganiserID) or by position. Grouped by grouping applied to the Position field Both fields displayed	3	
qryWithNewMembers			
6.5.3	Event Name and Date of Event from the Events table displayed Field created Labeled New Invited Invited+5	4	
rptEventsOrganised			
6.6.1	First Name, Surname and Position from the table Organisers added Event Name and Date of Event from Events table added Report is grouped by the Organiser table	3	
6.6.2	All fields are clearly visible	1	
6.6.3	Text colour of the Date of Event to blue	1	

HTML		22	0
QUESTION 7		22	0
index.html			
7.1	Title added between the Head tags <TITLE> tag opened and closed Text P33ps – Your Examination number added <TITLE>P33ps – Your examination number</TITLE>	3	
7.2	<H1> tag opened and closed and text added between tags Correct position in the body of site <H1>P33ps – Who we are!</H1>	2	
7.3.1	 tag used SRC= attribute applied Location of image 'Images\events.png' Do not award this mark if full path is used, as it will prevent the images from working when uploaded to a server or copied to a new machine. 	3	
7.3.2	Alternative text added 	1	
7.3.3	Image is enclosed in an <a> tag Href attribute added to a tag Points directly to events.html Do not award the mark if full path is used 	3	
events.html			
7.4.1	Paragraph tag added Containing text 'Welcome to the events page.' <P>Welcome to the events page</P>	2	
7.4.2	Color='blue' added to tag or style={color:blue} Note: the color attribute has been discontinued with HTML 5, so may not display correctly when page opened, you may still award the marks. The colour change of the text should be done using the style attribute style="color:blue". <P COLOR=Blue>Welcome to the events page</P>	1	
7.4.3	 tag added in correct location <P style="color:blue">Welcome to the events page.</P>	1	
7.5	Table tag sets used <table><tr><td> Tags used in the table have been closed head tag <th> or formatted to look similar <td><center> Three rows Attribute to merge 1st cell on row Colspan=2 Border =2 Can be 1 or any value greater than 0 Solution: <table border=2> <tr> <th colspan=2> Upcoming Events </th> </tr> <tr> <th> Event </th> <th> Date </th> </tr> <tr> <td>The feast</td> <td>12th December</td> </tr> </table>	6
