ANNEXURE 3**What do South Africans spend their money on?**

Statistics South Africa conducts a survey every 5 years in which they seek to establish what South Africans spend their money on. The last survey was conducted between September 2010 and August 2011.

Over the survey period (Sept 2010 – Aug 2011), 32,0% of overall household *consumption expenditure* went to housing, water, electricity, gas and other fuels. An average household would have spent approximately R30 505 on this item during the survey year.
